Dear Paul,

The Team here at HRVS Ltd would like to thank you for all your pre ISO 9001:2000 audit consultancy that you provided to us. I personally would like to thank you for your help & guidance in setting up our QMS manual and all your patience & understanding.

You managed to guide us through, what at first seemed an impossible & complex task in obtaining ISO9001 accreditation and not only that we did it at the first attempt. I look forward to working with you again in setting up our other depots and would not hesitate in recommending your services to any prospective clients who wish to contact me.

Kind Regards

Craig Parrish
Group Administration Manager
